NEW SCHOOL GEOGRAPHY
AND ATLAS.—In Press and will be
published in the month of July next, Geography
on the productive system, for Schools and Acade.
mies and Families. By Roswell C. Smrn,
author of "Intellectual and Practical Grammar,"
"Practical and Montal Arithmetic," "The Productive Grammar," "Introductory Arithmetic,"
etc. etc.

The Geography will be illustrated with numerous engravings, printed on fine paper, and bound in the best manner. It is accompanied by AN ATLAS containg:

1. A map of the World, 2. A map of North America,

3. A map of the United States, 4. A map of the Eastern States, 5. A map of the Middle States,

6. A map of the Southern States, 7. A map of the Western States, 8. A map of South America,

9. A map of Europe, 10. A map of Asia, 11. A map of Africa,

12. A chart of the World.

12. A chart of the World.

EXHIBITING ON A NEW PLAN.—The comparative and actual size of the different Empires, Kingdoms, States etc. their population, the number of inhabitants to the square mile; the actual and comparative number of inhabitants in every important city and town; the length and height of Mountains; the length, width and depth of the largest Lakes; the width of Isthmusse, Straits, and Oceans; length of Rivers, Gulfs, Bays, Sounds, etc. the navigation of Rivers, Lakes, Gulfs etc. the forms of Government; prevailing Religion; state of Civilization, and the races of Men inhabiting each country.

No pains or expanse has been spared in the execution of this Atlas. The Maps are engraved on steel plates in the best manner, and with the book, will contain a great variety of new and useful matter. They are from entirely new drawings, made by the author, especially for this work, from the best authorities, including all the recent discoveries. The chart is on a new, and the publishers believe much improved plan. The author has bestowed more time and labor on this Geography and Atlas, then on any of his other popular school books, and it is recommended to Teachers as being every way worthy of their stention.

BY It will be published by

tention.

BJ It will be published by

CABINET MAKING.— CHRISTIAN KUCH would respectfully inform the citizens of Constantine and its vicinity, that he still continues the CABINET MAKING business, in all its various branches. He would be happy to attend to all orders in his line, and begs loave to assure the public that his work shall be turned out in a manner inferior to none

nade to order on short notice, and out of as goo materials as can be found in Michigan. His shop is on Canaris street, two doors from the orner of Water and Canaris streets.

IMPROVED ROTARY COOKING STOVES. On or about the 1st Sept.
next, the subscriber will receive and offer for sale
in this village, THIRTY "Improved Rotary
Cooking Stoves." That the Rotary Stove is better for purposes of cosking than any other yet invented, there is no doubt. The top revolves on
rollers horizontally, by which means the flame
strikes every pot, kettle and pan used on it, directly. By a new and peculiar construction, the
oven is so made as to bake meat, bread, cake and
pics, with uncommon uniformity; a result of no
small consequence to all who cut of such articles.
With the above excellencies, is combined a rare
economy in fuel.

economy in fuel.

WARRIE SCHOOL ROOKS.

THE AMERICAN CLASS READER:
containing a series of lessons in Reading; with
latroductory Exercises in Articulation, Inflection-Emphasis, and the other casential elements of
correct natural Elementian: designed for Acadamiss and common Schools. By Gronge Wiraox, formerly Principal of the Camadaigus Acadency, and lats Principal of the Livingston Co.
High School.

The design of the American Cless-reader, is to
teach scholars to read. It is not sufficient for this
purpose, that a book be instructive and entertaining, and theselections charto and classical in point
of diction; it should be also properly adapted to
exercise the reader in all the varied tones, inflections, and other requisities that belong to conclecution.

tions, and other requisities that belong to consect elecution.

Four Lessons are inserted without pre-ctuation. Those will furnish tests of the degree of intelligence, and of attention to the electron in the pupil reads. They may also be used in teaching punctuation, and the use of capitals.

A considerable number of lessons have been selected from the Bible. Apart from the importunce and value of its divine instructions, the Sacred Scriptores abound in passages unrivalled in natural impressive elequence, and admirably adapted to the purpose of improvement in electron. In what is called the tortical dialogue, selections can no whereeles be found at all comparables.

A PRACTICAL AND THEORETICAL SYSTEM OF ARITHMETIC, containing several new methods of operation, and a new systems.

Mr. Morse:

Sir—Having carefully examined "The American Class-Rader," by Gronge Wilson, I hesitate not to express my opinion decidedly in its favor; because I deem it a work chaste in its selections, classical in point of diction, and admirably calculated to assist youth in becoming correct readcars. I hope that it will be universally adopted in our schools.

I have also exemined your "Practical and Theoretical Arithmetic," by the same author, containing saveral new methods of operation, and a new system of proportion; and hesitate not to say, that it is the best work I have seen of the kind.

DANIEL GIBBS.

Teacher of the Select School, Vienna, N.Y., Vienna, June 18, 1836.

Mr. Morse:

Sir—I have very carefully examined "The American Class.Reador," by "George Wilson," and have no hesitation in expressing my opinion of its excellence. I consider it the best work, for the purpose for which it was designed, that I have ever seen. I am confident it will be found eminently beneficial both to Touchers and Pupils; and cannot but desire its immediate adoption in our Academies and Schools.

I. S. SPENCER.

I. The above works are published, and for all Wholesalo & Retail, at the Detroit Bookstore, by L. L. MORSE.

August 4, 1836.

States' Line will leave Albany and Buffalodally, well fitted for froight and passengers.

BREWSFER, SMART & CO.

Detroit, June 29, 1836.

SYSTEM OF ARITHMETIC, containing several new methods of operation, and a new system of Proportion; with Theoretical explanations of all the principal rules. Also, a treatise on Mensuration, and a brief practical system of Book-keeping. By the author of the American Class Reader.

("This system of Arithmetic is designed for the more advanced pupils in common Schools and Academies. It does not attempt to combine mental arithmetic with the use of the slate, nor to units in one book a treatise for children of six, and for youths of sixteen years old. In mental crithmetic, every thing that could be desired, has been done by Colburn whose admirable little work is now so generally used and highly appreciated throughout the United States."

Canassances, Sour 1, 1830.
